

DATA STORAGE, SECURITY AND BACKUP POLICY

1. Objective and Applicability

This Data Storage, Security and Backup Policy outlines the procedures and guidelines for safeguarding and backing up critical data at **AKSAN Capital Advisory Private Limited ("the Company")**. This policy applies to all employees, directors, contractors, and third parties who handle or have access to the Company's systems, records, and confidential data, in compliance with the applicable SEBI (Merchant Bankers) Regulations and other extant SEBI circulars on cyber security and data governance.

Backup Frequency and Method

The frequency of data backup will be daily. The method of data backup will be full backup, ensuring complete replication of all critical business and client data. The backup of data will be stored at on-Premises Servers, maintained at the Company's registered office.

Access Control

Access to backup systems and confidential data is restricted to authorized personnel only, on a need-to-know and role-based basis. Access rights will be granted by the designated IT/Compliance Officer and will be reviewed and updated periodically, or immediately upon change in an employee's role or exit from the organization.

Monitoring and Anomaly Detection

The backup system will be continuously monitored for anomalies, failures, unauthorized access attempts, or data corruption. Any irregularities identified will be escalated immediately to the IT/Compliance team for remedial action.

Audit Trail and Record Maintenance

Detailed records of all access to backup systems, including user logs, timestamps, and actions performed, will be maintained for audit and regulatory inspection purposes, and retained for a minimum period as prescribed under applicable SEBI regulations.

Employee Training and Awareness

Regular training will be provided to employees on this data backup policy, data security best practices, and general cyber security awareness, to ensure organization-wide compliance and preparedness.

Disaster Recovery and Business Continuity

The Company shall ensure that backed-up data can be restored promptly in the event of system failure, data loss, or disaster, in line with its Business Continuity Plan / Disaster Recovery Plan, to ensure minimal disruption to operations and client services.

Policy Review

This policy will be periodically reviewed, at least annually or as and when required, and updated to ensure alignment with applicable SEBI regulations, amendments, and industry best practices.

Approval and Responsibility

This policy is approved by the Board of Directors and shall be implemented under the overall supervision of the Compliance Officer / IT Head.
